Southeast Supply is proud to offer the CamRack Corrosion Coupon Racks. Corrosion racks provide a convenient means of monitoring the progress of corrosion in various water systems. The unique and patented design of the coupon holder allows simple insertion and removal of metal corrosion coupons. No tools or thread tape are necessary. Visual inspections can be made in mere seconds.

Various options can be added to the CamRacks including clear horizontals, strainer basket, rotameter, sample valve or a gate valve outlet.
